

Rules of Awards for Young Researchers at the SYMKOM 2020 IMP² SYMPOSIUM

hereinafter referred to as Young Researchers Awards

§. 1.

Young Researchers Awards

1. The Scientific and Organizing Committees of the SYMKOM 2020/2021 IMP² Symposium, being deeply interested in high level of education and research activities of young researchers in the field of turbomachinery, fluid mechanics and power engineering, have established awards for the best papers and presentations at the Symposium.

§. 2.

Rules for granting the awards

1. Young researchers under the age of 35 who are authors or co-authors of the accepted conference papers and who present their paper during the SYMKOM 2020/2021 IMP² Symposium oral sessions can participate in the Young Researchers Competition.
2. There are no limits as far as a number of co-authors of the presented papers.
3. Three awards are established – for the best paper and presentation, for the second best paper and presentation and for the third best paper and presentation, respectively.

§. 3.

Competition Organiser

1. The Szewalski Institute of Fluid-Flow Machinery, Polish Academy of Sciences in Gdańsk and the Institute of Turbomachinery, Lodz University of Technology are the institutions responsible for the competition organisation, as well as for an appointment of the jury.
2. The Szewalski Institute of Fluid-Flow Machinery, Polish Academy of Sciences in Gdańsk and the Institute of Turbomachinery, Lodz University of Technology are founders of awards.

§. 4.

Prizes

1. Three prizes will be awarded for the first three positions on the ranking list.
2. The first prize is equal to 2500 Polish zloty.
3. The second prize is equal to 1500 Polish zloty.
4. The third prize is equal to 1000 Polish zloty.

§. 5.

Jury

1. The Jury board will consist of the members of the SYMKOM 2020/2021 IMP² Symposium Scientific Committee and professors invited by members of the Scientific Committee who participate in the symposium.
2. Each jury member will obtain a list of papers being accepted for the Young Researchers Competition and has to evaluate papers and presentations in three different fields – the scientific level of the presented paper, the presentation itself, as well as the quality of discussion.
3. Each jury member can grant 5, 4, 3, 2, 1 points (altogether 15 points maximum) to only five best papers and presentations of his/her choice – 5 – the best, 4 – the second best, 3 – the third best, ... etc.
4. The arithmetical sum of points given by all jury members will be calculated for every young researcher participating in the competition.
5. The ranking list of young researchers will be made according to the obtained final amount of points, where the best is the one with the highest number of points.

§. 6.

Final remarks

1. In the matters not covered by these rules, the decision will be made by the Chairman of the Scientific Committee.
2. The organisers reserve the right to introduce alterations or add annexes to the present Rules of Young Researchers Awards.
3. The prize obtained by the young researchers will be subject to income tax equal to 10% of the prize value.
